# CORE Task List

## (Shoot House and CACTF)

23	Responsible for the proper storage and accountability of the following:				<b>x</b>				<b>x</b>				
	· Pyrotechnics				<b>x</b>				<b>x</b>				
	· Compressed Gases				<b>x</b>				<b>x</b>				
	· Various POL products				<b>x</b>				<b>x</b>				
	· Support equipment/targetry				<b>x</b>				<b>x</b>				
24	Ammunition:				<b>x</b>				<b>x</b>				
	· Draw				<b>x</b>				<b>x</b>				
	· Store				<b>x</b>				<b>x</b>				
	· Maintain				<b>x</b>				<b>x</b>				
	· Usage factor determination				<b>x</b>				<b>x</b>				
25	Store and maintain all support materials					<b>x</b>							
26	Develop, maintain, and update range safety data						<b>x</b>						
27	Mission coordination:						<b>x</b>						
	· Scheduling						<b>x</b>						
	· Type of training						<b>x</b>						
	· Timelines						<b>x</b>						
28	Test, troubleshoot and repair target systems and/or devices:					<b>x</b>							
	· Conduct component safety and function tests					<b>x</b>							
	· Initiate systems testing IAW design, technical manuals, and or checklists					<b>x</b>							
	· Execute trouble shooting procedures and techniques IAW systems design or technical bulletins and/or manuals					<b>x</b>							
	· Execute preventive and corrective maintenance					<b>x</b>							
29	Assist in planning, coordination and scheduling for new construction						<b>x</b>						
30	Primary hand receipt holder						<b>x</b>						
31	Access Control to site and facilities					<b>x</b>	<b>x</b>						
32	Update maps, orders, and concepts of operation during scenario execution.								<b>x</b>				
33	Manage contractor range support personnel, materials, and equipment schedules.							<b>x</b>					
34	Coordinate activities for maneuver area operations and security during mission execution								<b>x</b>				
35	Operate computers/simulations to support exercise							<b>x</b>					
36	Ensure range safety data is applied								<b>x</b>

# CORE Task List

## (Shoot House and CACTF)

47	Perform maintenance operations on simulation systems for events/exercises/missions:											<b>X</b>	
	· Disassembly of components, devices and/or systems											<b>X</b>	
	· Cleaning, repair, preventive maintenance on all components, systems, devices, and equipment IAW design, technical manuals, and/or checklists											<b>X</b>	
	· Evaluate life cycle criteria											<b>X</b>	
	· Analysis of reliability, and maintainability											<b>X</b>	
	· Initiate disposal and replacement procedures for damaged devices											<b>X</b>	
	· Define alternate product and process solutions											<b>X</b>	
	· Determine time to repair (TTR) for systems and or devices											<b>X</b>	
	· Execute preventive and corrective maintenance											<b>X</b>	
	· Provide technical data for documenting maintenance and logistical support											<b>X</b>	
	· Coordinates for and/or conducts repair operations on all site support equipment											<b>X</b>	

This listing of CORE Tasks is the basis of the computation by DAMO-TRS for WCLS funding.

These tasks have been reviewed and discussed by the following individuals:

Installation Range Control Representative:

Date

PM Field Ops Representative: \_\_\_\_\_
